

Fireplaces

'Elizabethan'

'Tudor'

'Special to clients design'

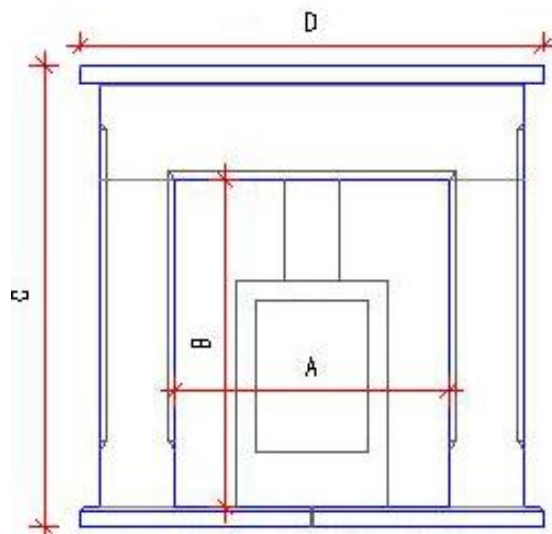

'Edwardian'

Hutton Stone Co Ltd produce 3 Standard fireplaces as shown although each one can be modified to suit the fire opening and space you have available. Beyond this and as often is the case our customers bring us their own individual ideas or a picture they have seen and we modify the design to suit your room dimensions. All fireplace quotes will come with a CAD scaled design drawing for your approval and of course all clients can choose from our many stone types, a colour and texture that they would like. Fireplaces are priced based upon the cubic meterage of Stone used in their production and the level of complexity of any hand dressing, moulding or carving required. To aid you in providing the basic dimensions we would need to quote we have the "Fireplace Dimensions" box below for you to write down the measurements.

Fireplace Dimensions

- A - Chimney opening width =
- B - Chimney opening height =
- C - Mantle height =
- D - Mantle length =

Mantle length and height dimensions can be left for us to scale accordingly if you wish.
